

PROJECT PORTRAIT — IPGUARD® SMART DOOR ENTRY TECHNOLOGY

205 flats, many overlooking the Thames

**NEW UNION WHARF,  
LONDON DOCKLANDS E14**  
*for London & Quadrant*

Smart visitor door entry and access control

ACCESS ■ COMMUNICATIONS ■ CCTV

All visitor entrances and inner lobby entrance doors have IPGUARD® Smart Audio/Visual visitor panels calling residents, concierge, remote management offices – anybody who needs to be called.

IPGUARD® is smart phone technology installed outside any door or gate and which enables:

1. Visitors to call whomever, there are no limitations
2. Residents, On/Off site facilities staff to open doors, gates
3. Management to have total remote programming control and log feedback.

The list of features for residents includes logs of all their visitors including missed calls. See IPGUARD® brochure for full details.

IPGUARD® Smart Audio/Visual visitor panels also installed on upper level corridor doors, in the high rise blocks, to add further security.

Proximity access control for bike stores

## NEW UNION WHARF, LONDON DOCKLANDS E14

IPGUARD® Smart Audio/Visual visitor door entry includes resident access control integral to the panels, and on all secondary resident-only doors and gates. Latest CLOUD technology, so programming and all system event data available to management 24/7/365, simply by connecting to [www.baticonnect.com](http://www.baticonnect.com)

### BATICONNECT ANTI-CLONE PROTECT™

The most important security requirement: GUARANTEED protection against unauthorised entry into buildings using multiples of a copied/cloned proximity key, and the same for radio transmitters for vehicle gates!

- Attempted fraudulent entry logged and alerts generated for management.
- Forever upgradeable via BATICONNECT CLOUD™.
- 24/7/365 remote access for management for all programming, resident and visitor data etc, [www.baticonnect.com](http://www.baticonnect.com) (no software required).
