Police Preferred Specification

SECURITY IS THE MOST IMPORTANT REQUIREMENT OF ANY ACCESS CONTROL SYSTEM

Residents expect a system where the proximity key fobs that give access into the building CANNOT be copied.

The IPGUARD® smart visitor and resident access control system GUARANTEES anti-clone protection for proximity keys (and radio transmitters for vehicle gates).

Each proximity key issued has a unique number and the IPGUARD® system will not allow duplicates. The residents are safe.

For a newly installed access control system to be FIT FOR PURPOSE it must guarantee to prevent access to the building using cloned proximity keys!

**ANTI CLONE
 GUARANTEE**

KCP4000 Proximity Keyfob for residents

- KCP4000 proximity keys are each **engraved with a unique 10 digit ID number**.
- The first 5no digits **identify the scheme/site**, the last 5no digits **identify the user**.
- They are also **sequentially numbered** for ease of administration control and security.

IPGUARD CALLS ALL
FLATS IN BOTH BLOCKS

PROXIMITY FOR
RESIDENTS

RESIDENTS LOVE IPGUARD®

IPGUARD
Smart App

The existing visitor door entry system had reached the end of its operational life.

For security reasons L&Q needed to replace, with as little downtime as possible, the visitor door entry with HD quality video entry for Equality Act compliance, proximity reader access control for residents and radio access control for car park users.

To avoid huge disruption to residents and expensive re-cabling & flat access, L&Q wisely contracted NACD to install latest technology IPGUARD 4G/IP/GSM Smart Visitor Entry with BATICONNECT CLOUD Service.

End result:

- Entire site of 490no flats upgraded within 3 weeks.
- Each block started and completed within 3 days and never left unsecure.
- No cabling into each flat.
- No video monitors in each flat or equipment in risers to maintain.

Now that's IPGUARD® Smart Technology, residents get the live video on all their Smart phones, iPads, tablets.

IPGUARD® SMART VISITOR

No residential development
is too big or demanding

EASY TO USE FOR VISITORS

All visitor block entrances and all car park vehicle gates have IPGUARD® Smart Technology Video Entry panels calling residents on their iPhones, Androids, iPads and tablets.

The IPGUARD® panels also call off-site L&Q concierge and facilities staff.

- 38no IPGUARD® panels
- 53no secondary proximity doors
- 4no vehicle gate radio receivers
- 490no flats all on...

Smart App

Available from
Google Play and App Store

SO SIMPLE AND CONVENIENT FOR RESIDENTS

The residents simply see and speak to their visitors on any of their own Smart devices, whether they be phones or tablets, iOS or Android. They are no longer tied to a single device at a fixed location. Why would anyone want it any other way?

SO SIMPLE TO ADMINISTER

WHY WOULD ANYONE WANT IT ANY OTHER WAY?

No software required

L&Q can program and monitor the system 24/7/365. They can set unlimited, multi-user simultaneous, permission level settings simply by logging onto www.baticonnect.com

Management have total remote programming control and log feedback.

A resident cannot open the door to a visitor, or by using their proximity key, without it being date and time logged!
