# RESIDENTS LOVE IPGUARD®

**IPGUARD**  
Smart App

**The existing hardwired audio only entry (handset on wall in flat) system and stand-alone proximity access control had reached the end of its life.**

L&Q needed to replace with Equality Act 2010 compliant system meaning Video. For security, the proximity access control needed to be remotely programmed.

Reusing old compromised cabling that was not compliant with latest CPR regulations was a non-starter.

Easy solution was to install IPGUARD 4G/IP/GSM Smart Visitor Door Entry Technology that does not need any cabling to flats.

Residents get live video on their Smart phones, iPads, tablets etc.

Residents access using proximity keys that are remotely programmable from anywhere via [BATICONNECT.COM](http://BATICONNECT.COM) cloud.

# SO SIMPLE AND CONVENIENT FOR RESIDENTS

The residents simply see and speak to their visitors on any of their own Smart devices, whether they be phones or tablets, iOS or Android. They are no longer tied to a single device at a fixed location. Why would anyone want it any other way?

HD QUALITY  
IMAGES

ZOOM IN  
& FULL SCREEN

CALL LOGS  
WITH IMAGES

Visitors received,  
missed calls, doors  
opened, access  
denied – all with  
time and date.

PREVIEWING

Discrete preview  
before answering.  
Shows visitor  
calling location.

MULTI RELAYS  
CONTROLS

Open the door or  
vehicle gate.  
Speak handsfree  
or privately.

# SO SIMPLE TO ADMINISTER

## WHY WOULD ANYONE WANT IT ANY OTHER WAY?

No software required

L&Q can program and monitor the system 24/7/365. They can set unlimited, multi-user simultaneous, permission level settings simply by logging onto [www.baticonnect.com](http://www.baticonnect.com)

Management have total remote programming control and log feedback.

A resident cannot open the door to a visitor, or by using their proximity key, without it being date and time logged!

**BATICONNECT CLOUD 24/7/365**  
Programming at any time from anywhere

KCP4000 proximity keyfob for residents

TEL433 coded radio transmitter for motorists

**ANTI CLONE GUARANTEE**

### CARETAKER

Proximity key codes, telephone numbers

### MANAGEMENT COMPANY

Authorisation levels, multi-site

### ADMINISTRATOR

Total rights

## SECURITY

IPGUARD® logs the time and date of when, and by whom, a visitor was allowed entry. Management can quickly identify abusers and disable their visitor door opening rights.

# IPGUARD® SMART VISITOR

## BATICONNECT ANTI-CLONE PROTECT™

The most important security requirement: **GUARANTEED** protection against unauthorised entry into buildings using multiples of a copied/cloned proximity key, and the same for radio transmitters for vehicle gates!

- Attempted fraudulent entry logged and alerts generated for management.
- Forever upgradeable via BATICONNECT CLOUD.™
- 24/7/365 remote access for management for all programming, resident and visitor data etc, [www.baticonnect.com](http://www.baticonnect.com) (no software required).
